# DATA VISUALIZATION DEVELOPER

Visualizing data between the 2017  
Netflix Stock Market and Dow Jones.

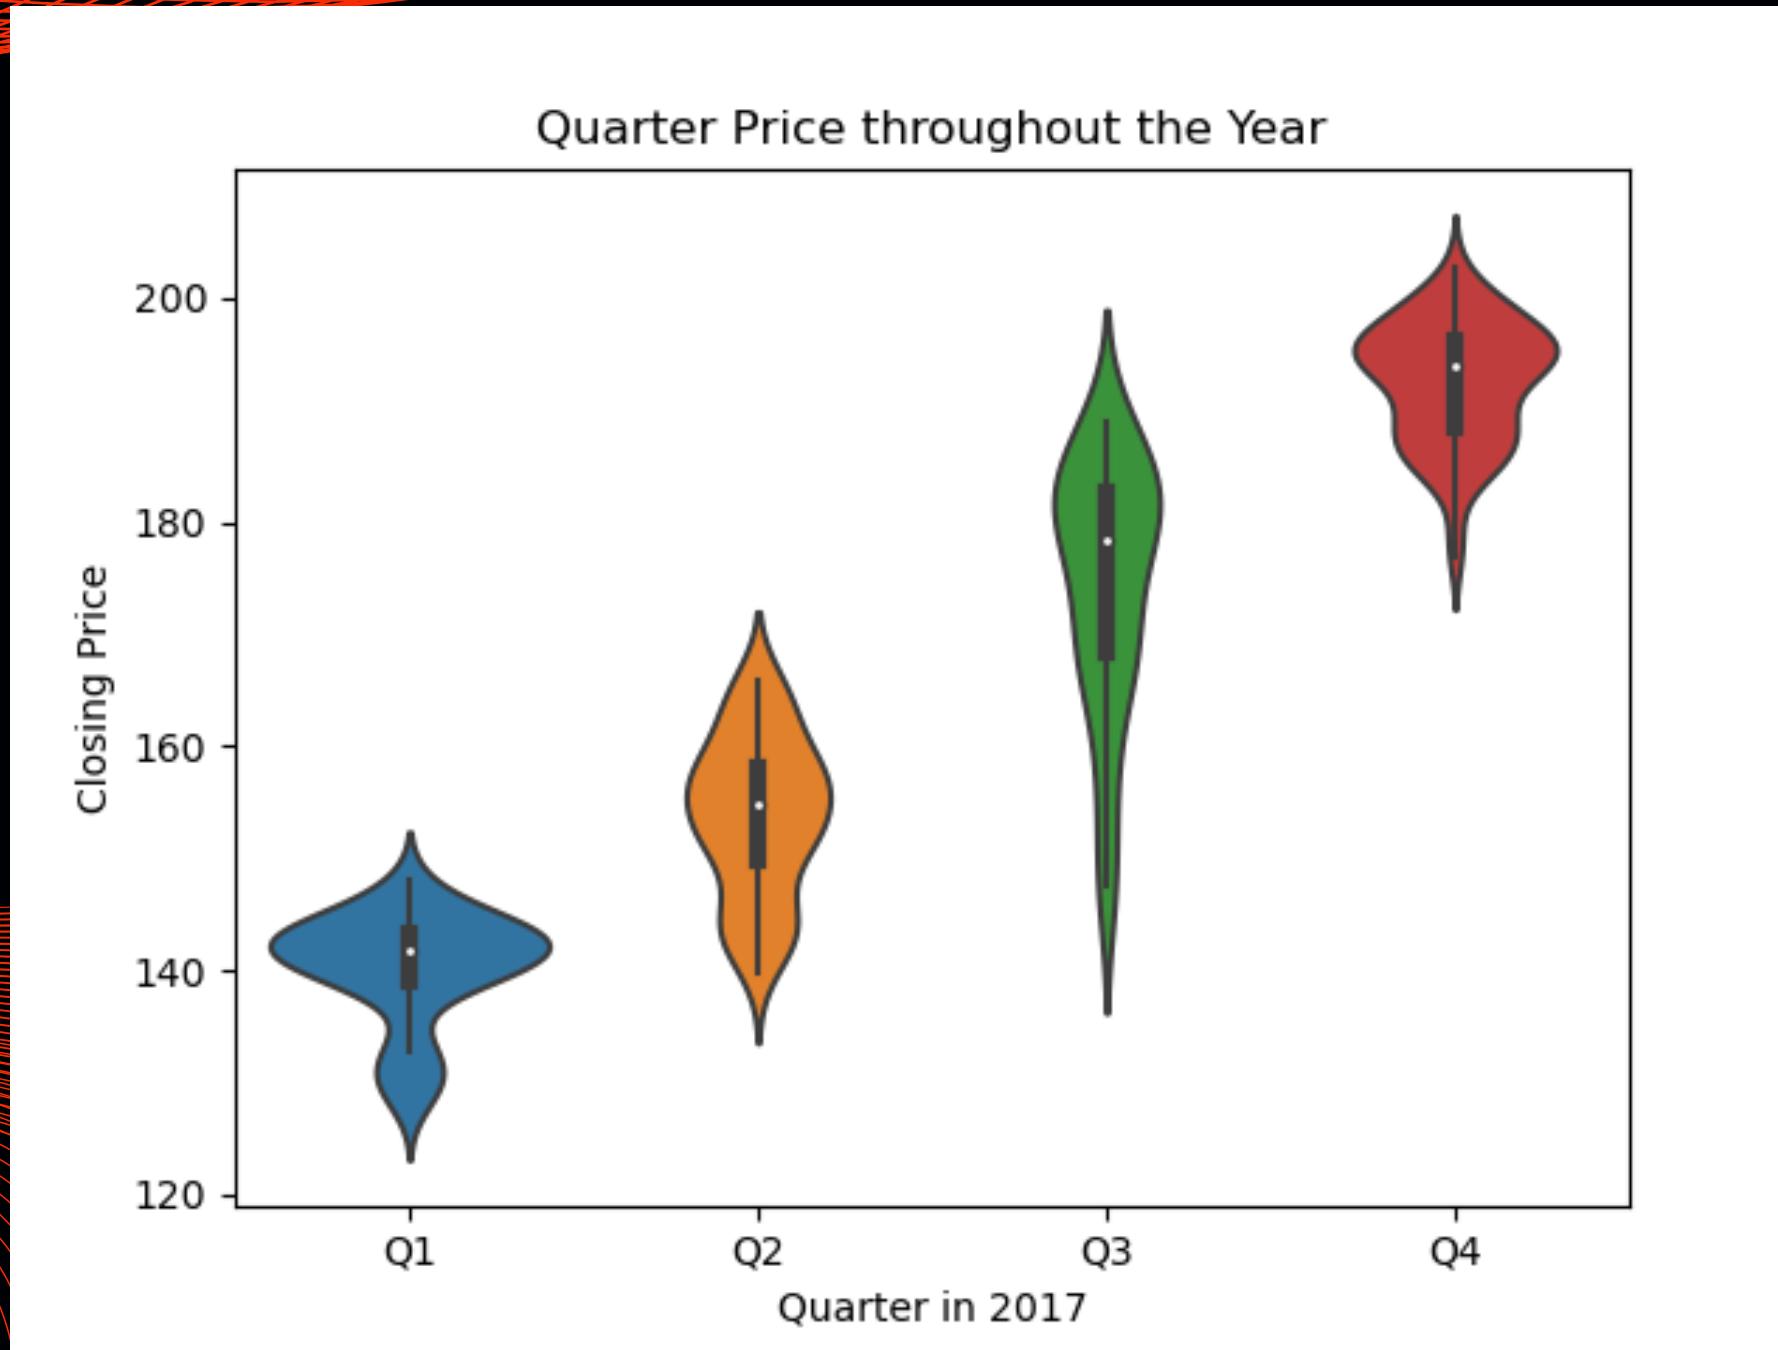

# CLOSED PRICE THROUGHOUT 2017

Netflix Stocks Closed Price seems to be moving in a Bullish Trend, with a little correction on June to around 150 and back to skyrocketing to around 180.

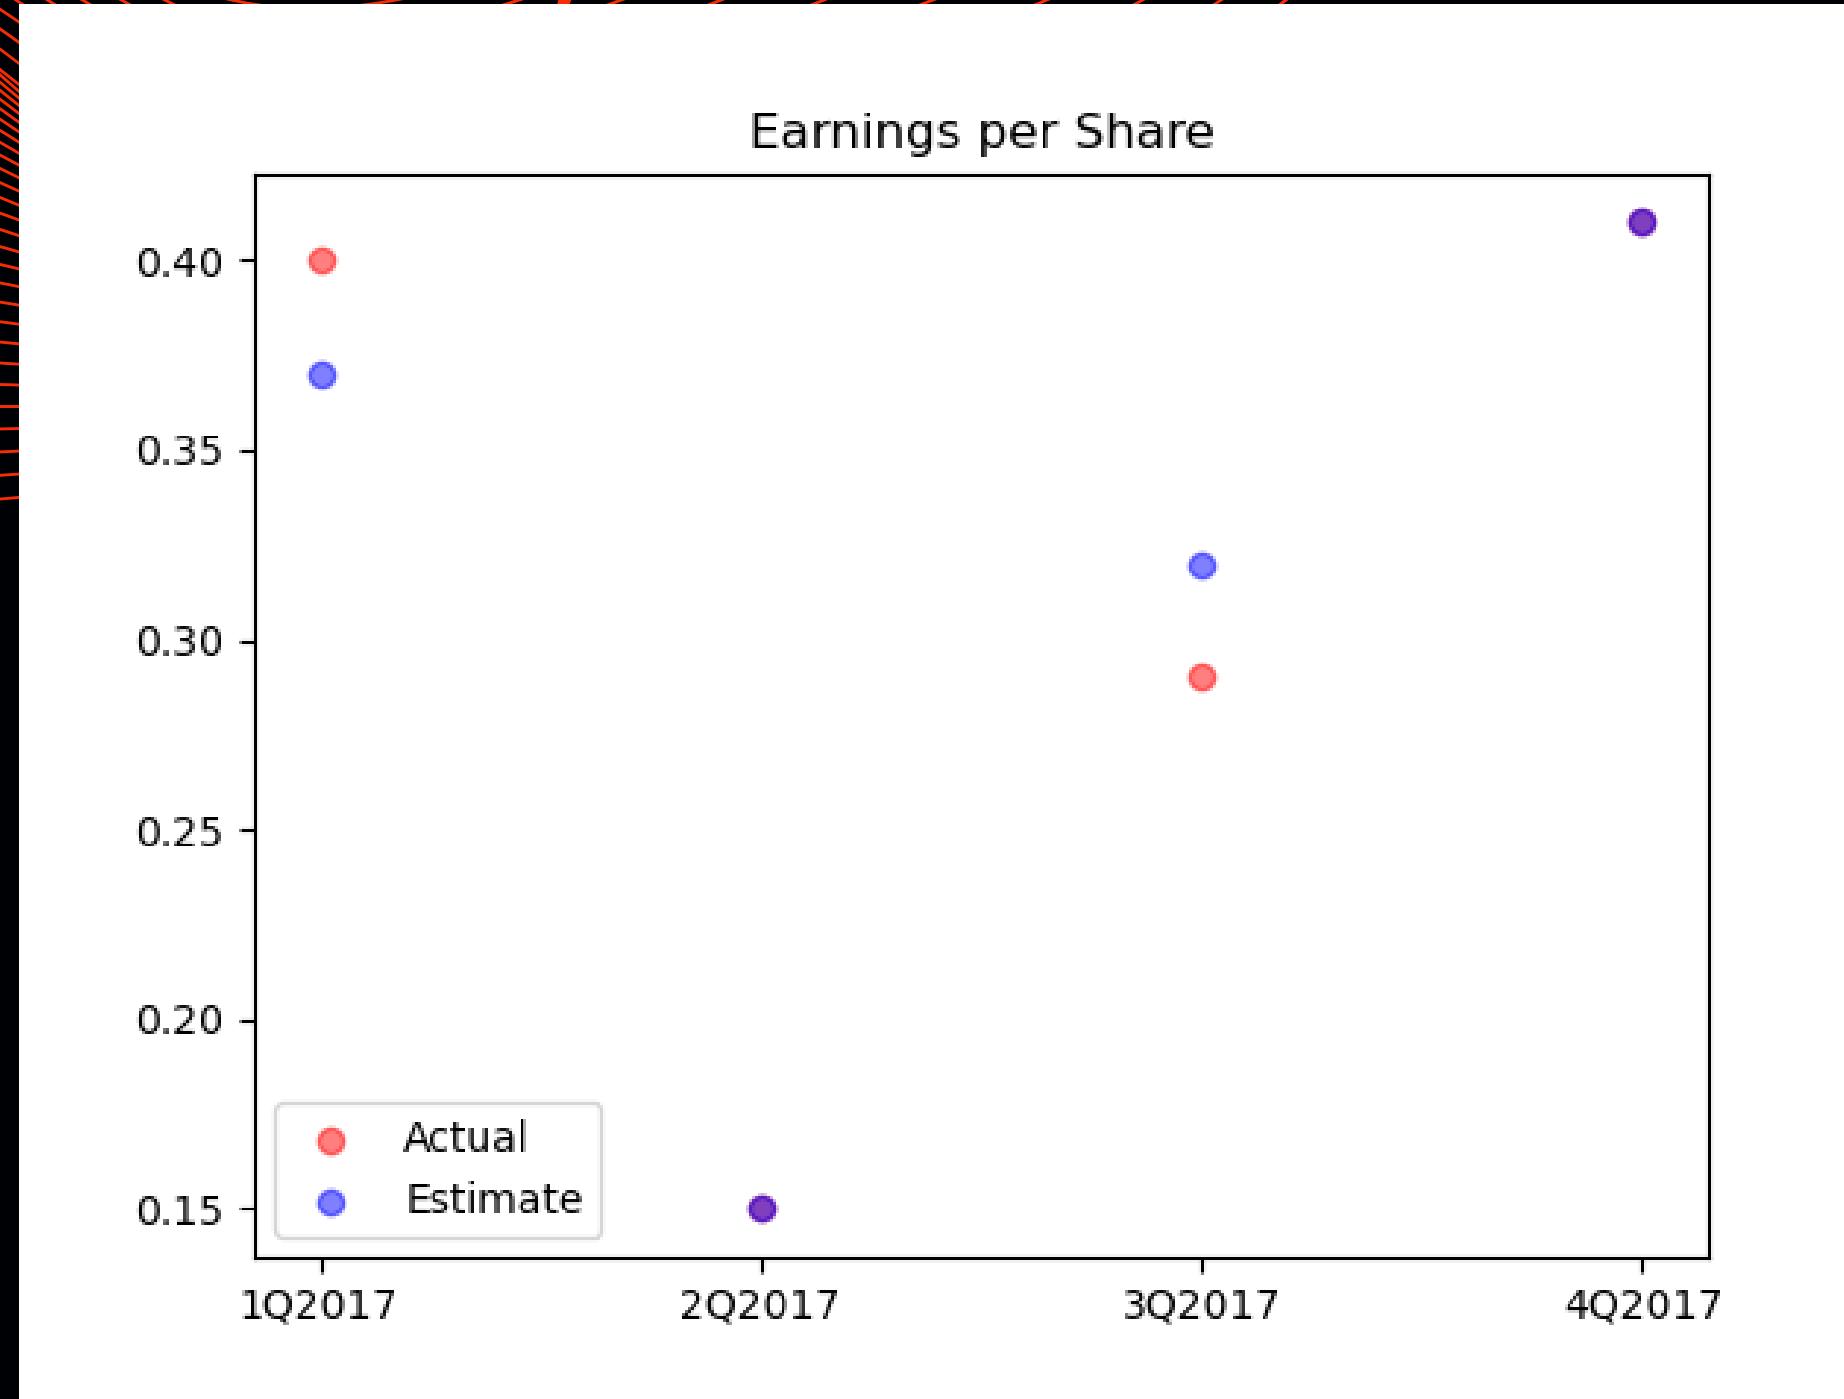

# PRICE BASED ON QUARTERLY DATA

The Closing Price for the Netflix Stock Market is in a bullish trend with a significant dip but still closed in an ideal position on the third quarter.

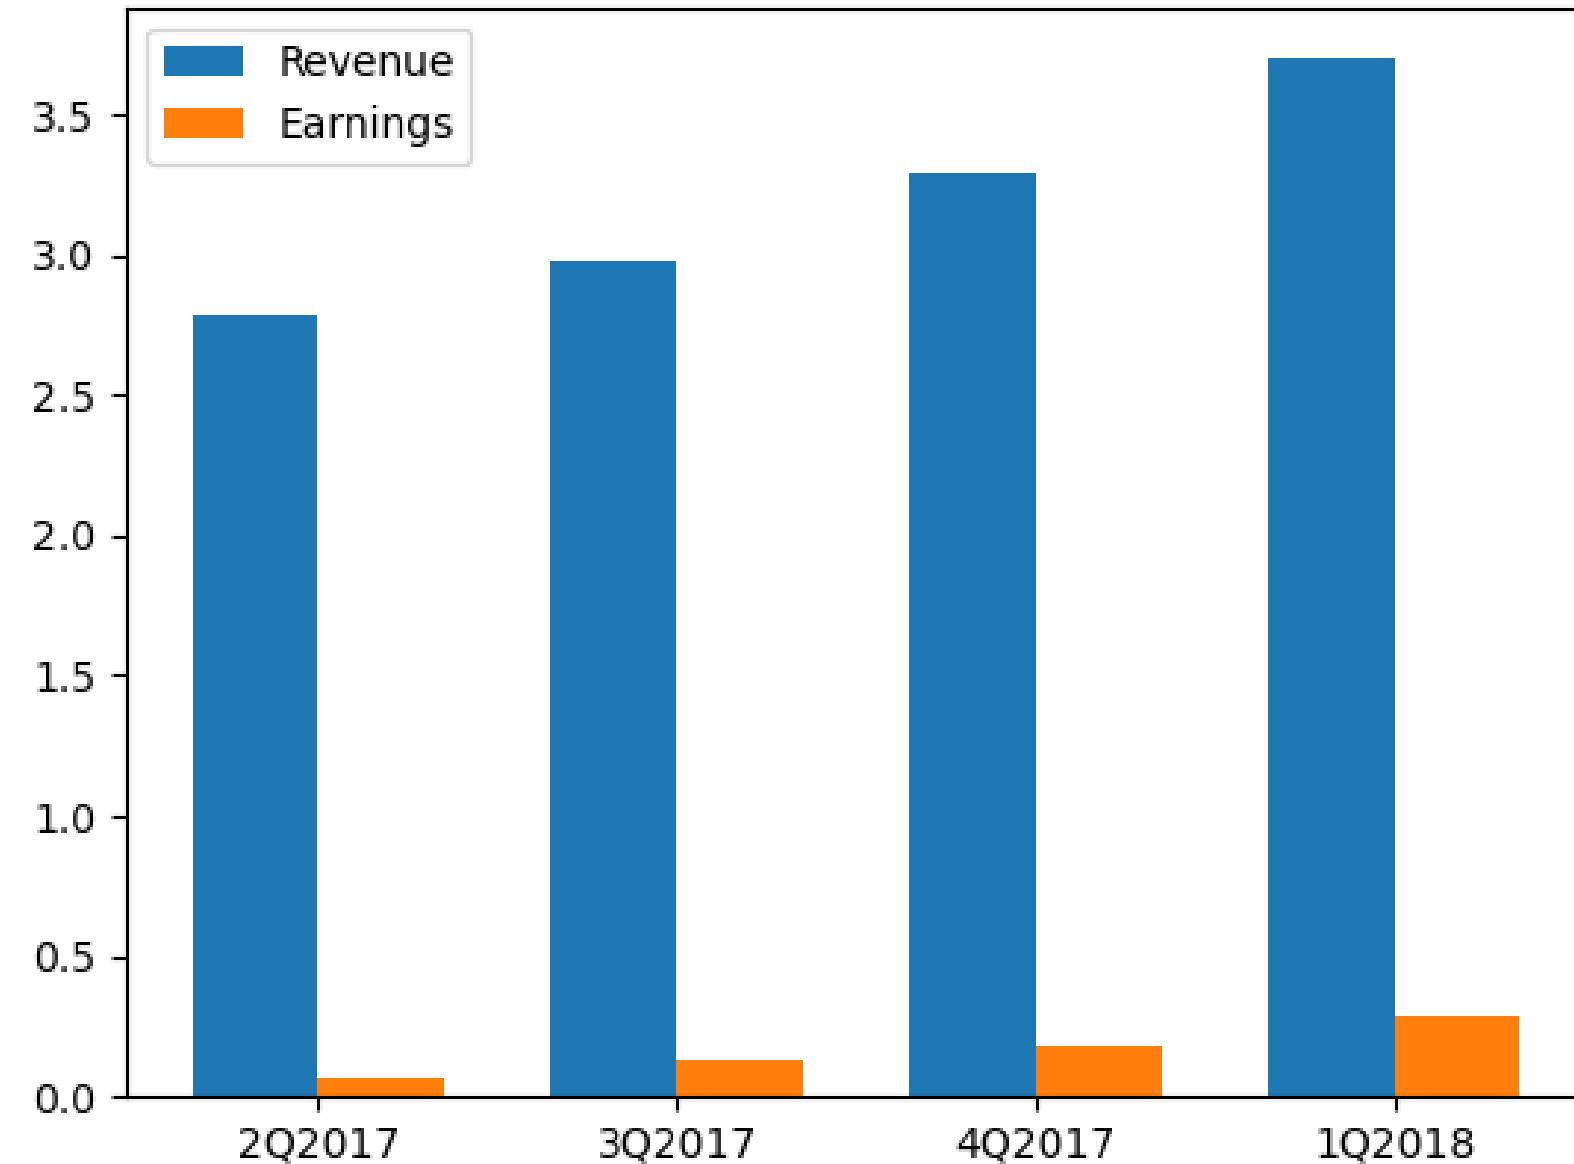

# EARNINGS PER SHARE IN 2017

The estimated earnings per share seems almost perfectly accurate throughout the year.

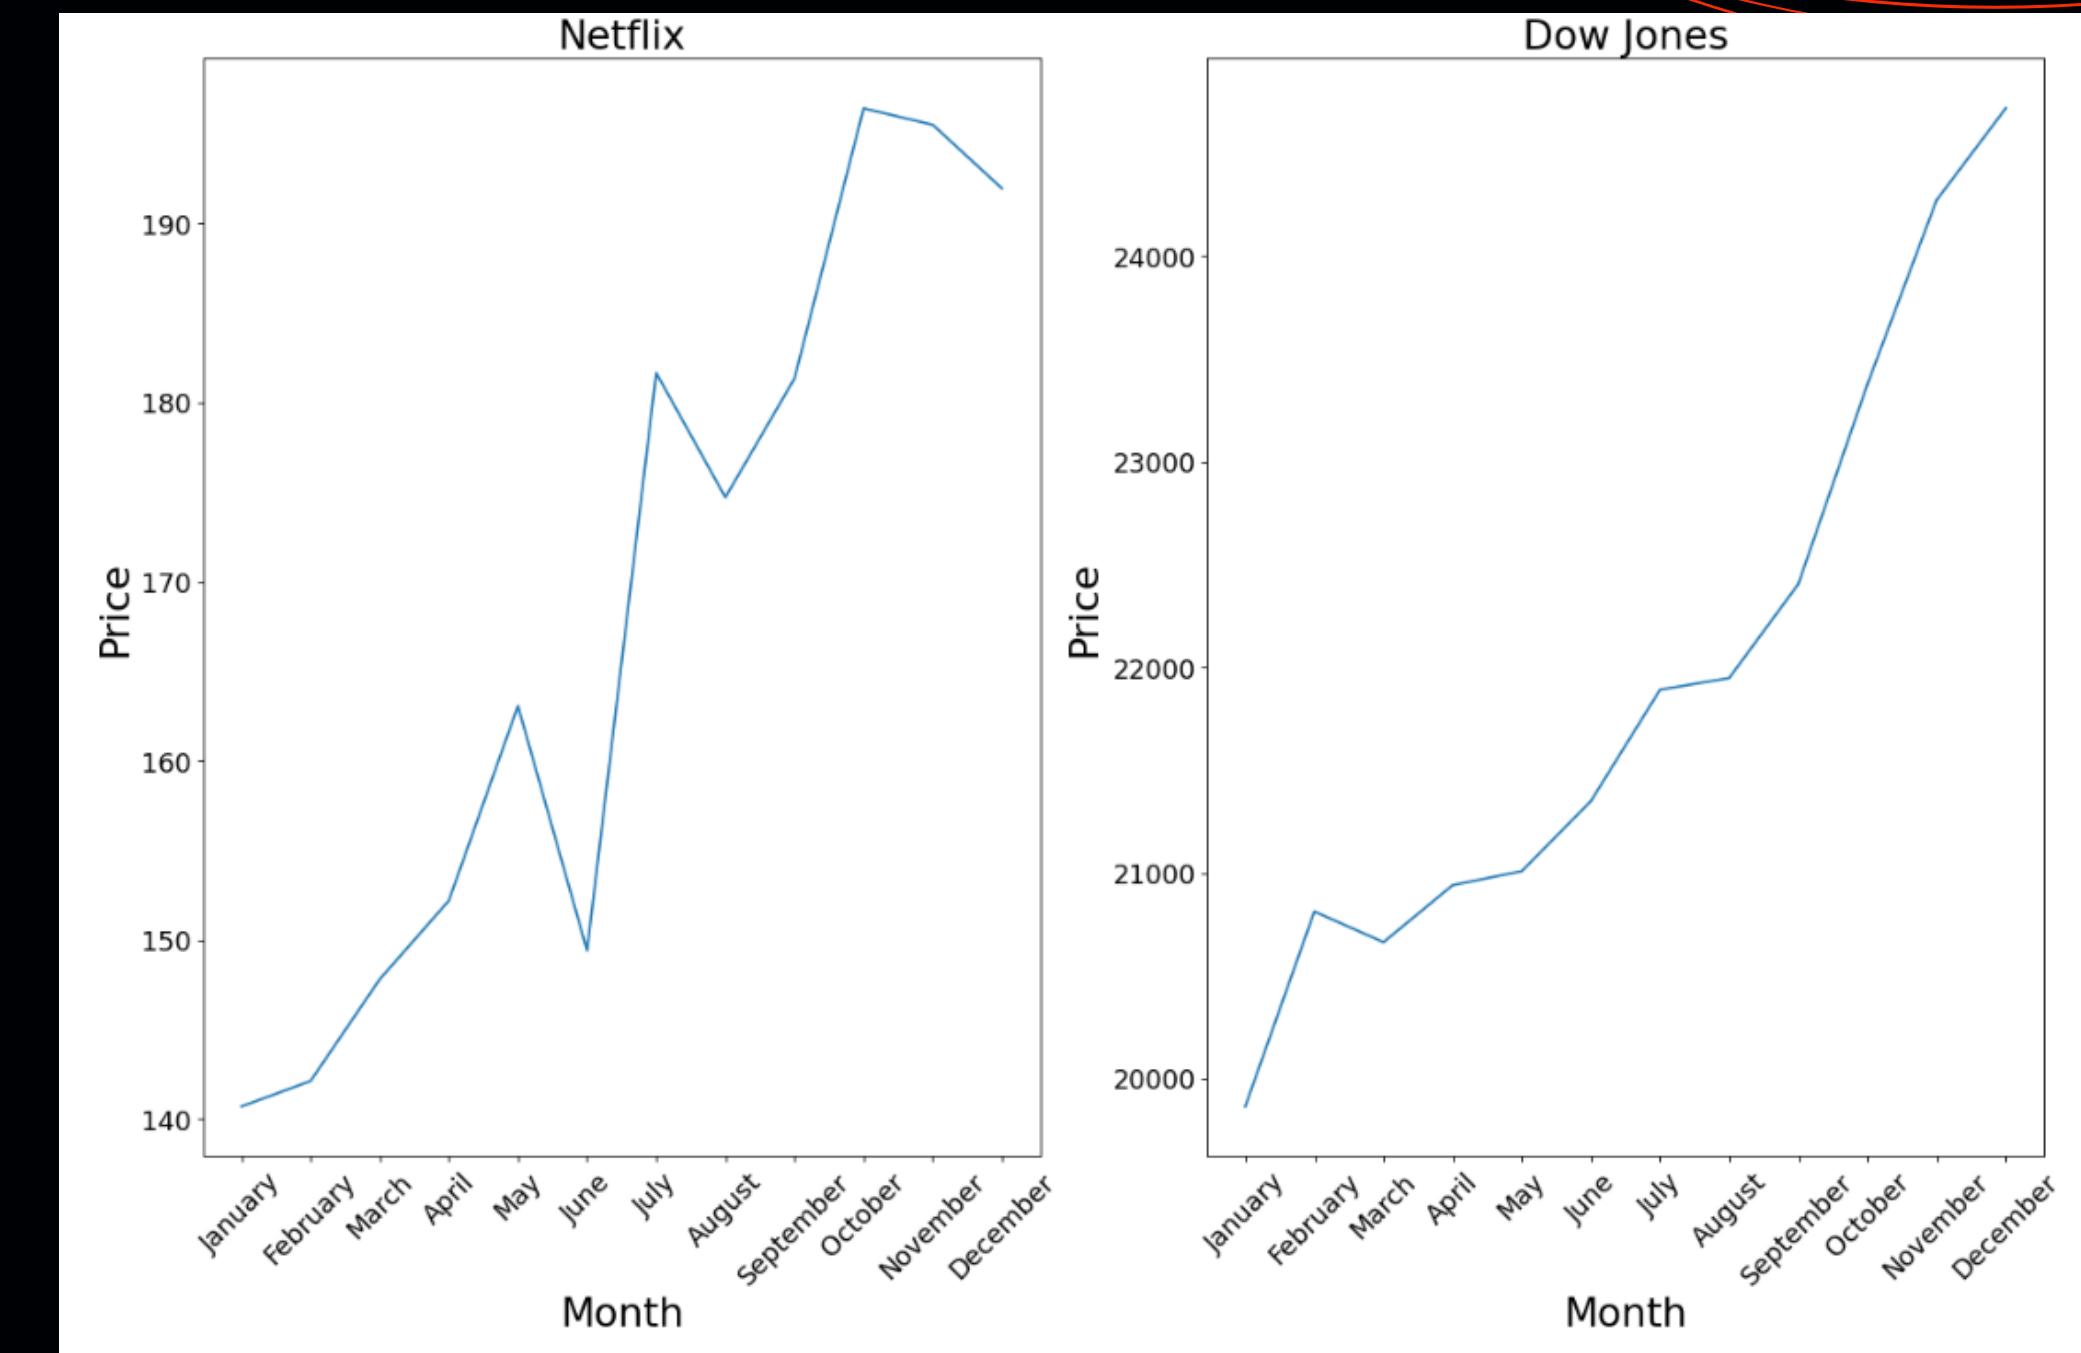

# EARNINGS VS REVENUE

The difference between both Revenue and Earnings is a lot. It seems that the company is bringing in more money than it is keeping as profit. Research and development, marketing, or other expenses may be the cause.

# NETFLIX VS DOW JONES

Netflix stocks seems to be more volatile but is moving at a bullish trend as well as Dow Jones.
